

MOBILIZE STOCKROOM PERSONNEL WITH SIGGA MOBILE WAREHOUSE & INVENTORY™

Modernize your warehouse operations

Improve Productivity

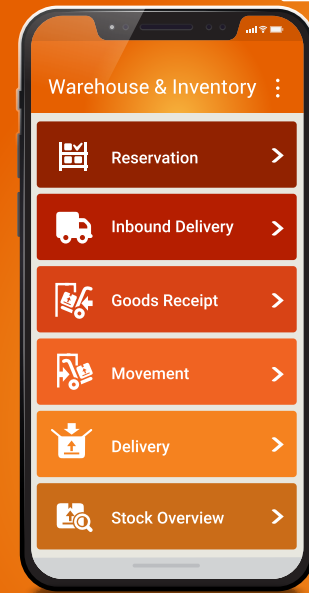

Reduce Lead Times

Increase Accuracy

Increase Visibility

Sigga Mobile Warehouse & Inventory™ enables real-time visibility into the movement of goods and inventory within SAP® WM and MM-IM. Replace paper processes to boost workforce efficiency and create more accurate inventory records. The intuitive interface allows stockroom workers to instantly record inbound and outbound transactions all while in the warehouse online or offline.

SIMPLIFY ROUTINE TASKS

- Use RFID and barcodes to quickly capture material and storage information
- Minimize manual data entry to save time

INCREASE INVENTORY ACCURACY

- Decrease data entry errors
- Reduce inventory levels and carrying costs

REDUCE LEAD TIMES

- Produce faster receipts and shipments
- Increase material availability for maintenance and production

COMMUNICATE FASTER

- Quickly assign SAP WM, MM-IM, and QM documents to your staff, regardless of location
- Check stock movement status real-time in SAP

REDUCE LOSSES

- Create an audit trail on transactions and movement by users to reduce shrinkage and lost materials

SIGGA MOBILE WAREHOUSE & INVENTORY™

Advanced features to streamline inbound and outbound transactions to maintain SAP WM, MM-IM, and QM.

INVENTORY

Perform faster and more accurate cycle counts and create inventory documents. Quickly validate, approve, and submit adjustments to SAP.

GOODS MOVEMENT

Fulfill reservations and create material documents for goods issue, transfer posting, and more.

STOCK OVERVIEW

Check stock information anytime, anywhere, and take immediate action to procure critical components.

QUALITY INSPECTION

Execute quality inspections for materials, evaluate characteristics, record defects, and decide on usage.

SIGGA CUSTOMER SUCCESS

Sigga works with multinational corporations to mobilize and modernize operations. A Sigga paper manufacturing client experienced the following results in their warehouse operations.

+50%
Pick rate

36k
Paper sheets saved

-20%
Administrative time savings

SIGGA MOBILE WAREHOUSE & INVENTORY™

SAP® Certified
Integration with SAP S/4HANA®

- Provides full functionality offline and automatically syncs when back online
- Comprehensive features let workers do it all from a single screen. Capture data, images, and video, including RFID and barcodes without leaving the app.
- Integrates directly with SAP WM, MM-IM, QM
- Complies with industry standards such as SAP integration certification and Sigga is certified to ISO 27001

Go fully digital to reduce administrative tasks, improve data accuracy to improve overall warehouse management and costs.
