

REIMAGINE MAINTENANCE WITH SIGGA PLANNING AND SCHEDULING™

- Automate Scheduling.
- Reduce Downtime.
- Increase Worker Productivity.

Sigga Planning & Scheduling™ solves your most common maintenance and planning challenges. Smart automation creates the most efficient and cost-effective schedule, significantly reducing administrative time for planners and schedulers while increasing productive time for maintenance workers.

What would hours of your maintenance manager's time mean to your maintenance activities and company bottom line? Customers using Sigga Planning & Scheduling™ have averaged a 50% time savings and improved their ratio of planned versus reactive work.

With Sigga Planning & Scheduling™:

- Lower operational costs
- Increase technician wrench time
- Automate routine steps to plan and schedule work orders
- Assign the right tasks to the right people
- Update SAP with just one click

CUSTOMER SUCCESS

Ingredion, a leading global ingredients solutions company, transformed maintenance at their processing plants reducing planning and scheduling time from two days to two hours. The burden on the planning team was significantly reduced. Technician wrench time increased by 25%. Sigga Planning and Scheduling positively impacted Ingredion's move from a reactive to a proactive maintenance organization.

Benefits of Automating Planning and Scheduling in Asset-Intensive Organizations

 **5.1%**

Increase in asset uptime percentage¹

 **35%**

Increase in technician workforce availability¹

up to **90%**

Schedule Compliance²

1. Time to Make the Change to Reliability, Erik Hupje', 2022 2. Maintenance Planning and Scheduling Handbook, Doc Palmer, 2019

Sigga offers a smarter and more flexible solution to automate maintenance scheduling.

Automate routine processes

Sigga automates routine steps to check capacities and plan resources to create the week's schedule.

Priority management

The smart scheduling algorithm prioritizes tasks and automatically creates a schedule based on user-added custom rules.

Budget management

Create annual maintenance budgets and track actual monthly spending with easy reporting.

Maximize SAP Performance with Sigga

The most flexible solution to automate maintenance planning and scheduling with SAP PM.

- Achieve fast ROI
- Gain real-time visibility
- Make better decisions

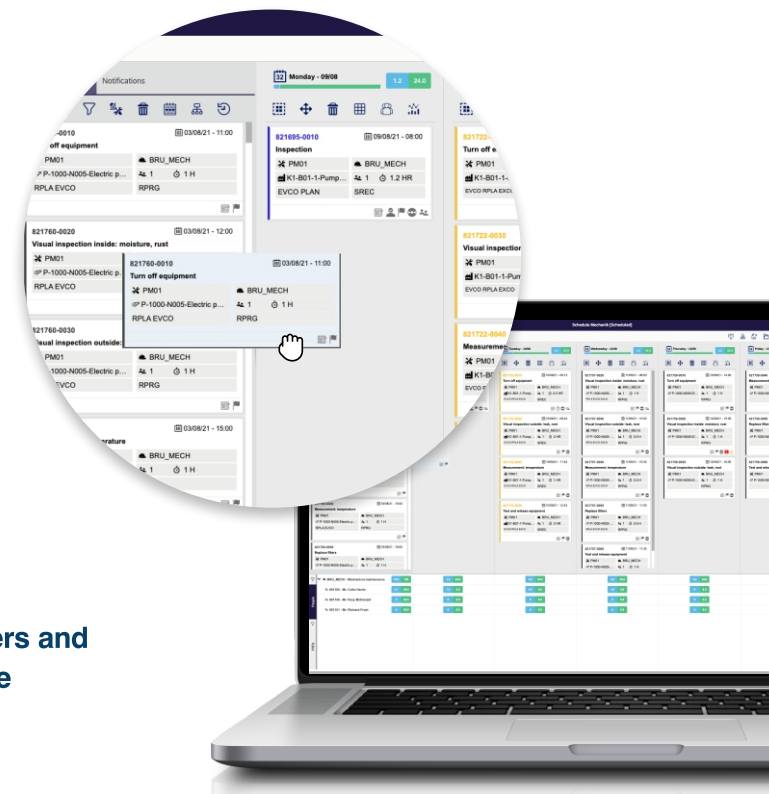

Take back wasted people hours. Empower your planners and schedulers with the right tools to advance maintenance management for operational impact.

Track Capacity

View technician availability and planned asset downtime.

Resource planning

Automatically view workforce tasks, assign work orders, and check materials availability.
